PROFESSIONAL EXPERIENCE

Aug'21 – Present WALMART CORPORATION (IDC)

Bengaluru, India

Walmart helps people save money and live better. Walmart International delivers on this promise by bringing value and convenience to millions of customers in 18 countries outside the U.S.

Jan'26 – Present. Global Product leader, Walmart Inc (eCommerce)

- Own the product suite on Identity, Profile and Omnichannel accounts for Walmart inc. Accounts is the gateway to Walmart. Extending across the enterprise (click and brick), this platform provides the identity, user understanding (profile), access, and trust foundations that allow Walmart to operate as a single, coherent ecosystem.
- Enabling identity and profile as reusable enterprise platform capabilities; enabling quicker adoption and scaling across markets and enterprise use cases (several months down to 3 weeks).
- Supporting AI agentic shopping, allowing controlled access to Walmart through customer accounts.
- Enriching our ability to “Know Your Customer”, increasing coverage and depth of profile attributes. E.g. Delivering Address standardization, saving \$XXXX monthly and ensuring On-Time-Delivery to customers.
- Unified 80+% of MX active users under a single sign-on and across ecommerce and verticals (e.g Pharmacy); improving login rates, increasing coverage of mobile verified accounts and deflecting Account takeovers and associated chargebacks.

Aug'21 – Present. Senior Director, Walmart International (eCommerce)

- Led team of 55 product managers, product analysts and program managers to deliver on 1 of 5 major domains in Walmart international (customer engagement). In this, provide local leadership support to 20+ product associates. Started with a team of 24 and 13 directs with no leadership bench. Grew the team to 7 directors and group managers within their structures.
- Created a vision and delivered to it for the “Customer engagement” portfolio, which included 1) Accounts - identity, profile, membership 2) Care - customer communications, chatbot, self help, agent tools 3) Monetize (AdTech) - sponsored ads, display ads, DSP (offline) 4) Growth (MarTech) - SEO, SEM, feeds, paid marketing 5) CDP and CRM 6) Cashier (financial services in Mexico)
- Responsible for an annual budgets of \$30+M, delivered impact of \$XXXM in Ads revenue and \$XXM in GMV lift, while cost savings of \$XM through contacts per order reduction (10%+ reduction), bending the curve on cancellation and return rates. Additionally, through Cashier generated \$XXXM TPV in Mexico with an increasing active customer base. Launched and scaled Membership (free delivery subscription service) for Canada and Mexico, with a rapidly growing active customer base, beating expectations. In CA, Delivery Pass(membership) was recognized as 2024 Best New Product Award Winner (Brandspark). Full functional responsibility for these OKRs.
- Later, delivered an enterprise-wide technology driven initiative to modernize the eCommerce techstack and unlock value faster for markets (build once, use everywhere). Led half of major tracks supporting eCommerce post purchase, customer care, transactional communications, accounts (identity/profile), membership and delivered in CA,MX,CL.
- Incubated and owned the localization/internationalization services platform. Through the Translation platform, XXXM+ entities translated in 80+ languages contributing \$XXXX in cost savings and improved operational efficiency. This initiative is the 2025 Walmart President’s Innovation award winner as selected by then CEO Doug McMillon. Walmart is recognized as the Best International Retailer for Spanish Experience.
- Represent IDC as the senior leader for key platform tracks, liaising with partner teams across the globe (US,CA,MX,IN).

Jul '03 – Nov '08

ORACLE CORPORATION

Hyderabad, India

World's largest enterprise software company - #1 in Human Capital Management (HCM): Oracle Applications

Aug'07 – Nov '08

Project Leader - Cross-Localization of S.O.E. – Fusion Applications (HCM)

SOE (Statement of Earnings) is a common component of any payroll localization product yet differs vastly between various legislations. The focus of this project was to develop a common functional and architectural solution that could be consistently adopted across all localizations.

- Led the project to deliver S.O.E. for the next generation enterprise application suite i.e. Fusion with a team of 5 senior developers. Coordinated the solution for uptake by 19 localizations.
- Co-ordinated activities with Product Management, Quality Assurance, allied Development teams and Information & Learning teams – bridging cultural and geographical boundaries (U.K., India, France, U.S.).
- Negotiated with management to lend out under-utilized developers from sister teams by generating interest about the project, resulting in 20% of developers volunteering to participate in the project. This resolved a resource-crunch situation and boosted the team's motivation.
- Visualized and outlined the architectural design for S.O.E.
- Innovated 2 ideas, one of which has been identified as patentable, during the project and presented them to the Chief Software Architect, Fusion Technology group (6000+ employees).
- Selected and trained to be the BPEL / SOA champion representing a team of 40.

Apr'04 – Aug'07

Technical Lead / Senior Developer - Oracle EBS Human Capital Management (HCM)

Localization of HR/ Payroll for NORDICS (Denmark) [Oracle Payroll is a rules-based payroll management system, assisting in controlling the workforce costs and ensuring the entire workforce is being paid on time and according to the compensation rules]

- Contributed as a developer (6 out of the 9 most complex modules); authored the functional design for 80% of these modules.
- Supervised development during second half of the project in the capacity of a Technical Lead, during which authored the functional design for 90% of the 11 modules built.
- Shipped 2 out of the 5 main product releases of Payroll to customers, 100% on schedule.
- Managed client relationship, coordinated with the engagement manager located at client site, supported product implementation for the first customer.
- Enhanced product development methodology by defect analysis, leading to a 40% improvement in quality.
- Interviewed more than 10 candidates, having been added to the recruitment team.

Aug'03 – Mar'04

Applications Developer, Oracle EBS Human Capital Management (HCM)

Localization of HR/ Payroll for Ireland/ U.K.

- Developed 6 technical modules with the team from technical design level onwards.
- Resolved customer issues, 90% being priority 1 or 2.
- Successfully managed yearend payroll changes in UK legislation resulting in a satisfied premium customer.
