GLOBAL PRODUCT & TECHNOLOGY EXECUTIVE | ENTERPRISE AI-FIRST PRODUCT STRATEGY & TRANSFORMATION | AI-NATIVE PRODUCT LEADERSHIP

Strategic Global Product and Technology Executive with 23 years of experience building category-defining products, enterprise platforms, high-performing organizations, and multi-million-dollar businesses across various ecosystems, advancing AI-native product leadership practices. Proven track record in delivering quantified impact through revenue growth, platform monetization, operational efficiency, customer engagement, and AI-driven transformation, translating emerging technologies into scalable products and measurable business outcomes. Recognized for defining and leading long-term product vision, scaling global teams, influencing C-suite stakeholders and boards, driving innovation, fostering inclusive cultures, and developing future generations of product managers and technology leaders. Translating complex technology into customer and business value

CORE EXPERTISE

- AI & GenAI Strategy • Product & Platform Leadership • Enterprise Transformation • Customer Experience & Engagement • Digital Commerce & Marketplace • Fintech & Payments • Membership & Loyalty • MarTech & Growth • Identity & Trust Platforms • Data & Analytics • International Expansion • Product Organization Leadership • P&L Management

KEY ACHIEVEMENTS

- 23-year track record of quantified business impact across AI platforms, fintech, identity, eCommerce, and enterprise infrastructure — delivering $250M+ at Walmart, multi-million-dollar revenue growth at Amazon, and an $88M government modernization at King County.
- Shipped GenAI at enterprise scale across multiple products: LLM translation platform (2025 Walmart President's Innovation Award), MCP-based agentic post-order commerce, conversational AI for customer care, and Alexa Smart Home India launch (Amazon Rockstar Award).
- Career-long org builder and people leader: grew Walmart International PM org from 15 to 90 in four years; developed 6 Director-level product leaders; built engagement culture with 100% survey participation and 86% intent-to-stay across a global multi-geo team.
- Proven 0→1 and scale executive: launched Alexa Smart Home as India's first smart home category (2017); took Cashi fintech wallet from 0 to 1.48M active customers and $2B MXN (~$100M USD) in annual TPV; grew two membership programs to 250K+ combined paid subscribers.
- C-suite and Board-level product strategist: led 6+ executive presentations on Cashi to CEO Doug McMillon, the Walmart Board, and International leadership over 15 months; authored product narratives reviewed by CPO Daniel Danker and International CEO Kath McLay; secured OP1 investment at Amazon through VP levels.
- Platform and identity architect across global markets: built Walmart's identity backbone for hundreds of millions of users across five markets; unified omnichannel identity at Nordstrom (One Nordstrom); delivered an enterprise EBS modernization integrating 80+ government systems (CIO Award).

PROFESSIONAL EXPERIENCE

HSBC — Bengaluru, India Oct 2026 – Present

Managing Director, Head of Product, CTO Platforms & Architecture

- Building HSBC's product management for technology platforms (AI, Data, Infrastructure and DevX): strategy, roadmaps and standards for the platforms that engineers across the bank build on, and the team to deliver them. Member of the CTO Platforms & Architecture leadership team.

WALMART CORPORATION (IDC) — Bengaluru, India Aug 2021 – Jun 2026

Global Product Leader, Product Management — Walmart Inc (eCommerce) *Jan 2026 – Jun 2026*

- Transformed Walmart's global identity platform, reducing new-market onboarding from months to 3 weeks and accelerating international expansion.
- Enabled AI-native commerce by integrating identity capabilities into agentic shopping experiences, delivering secure and personalized customer journeys.
- Generated $20M+ incremental revenue by modernizing authentication, sign-in, and fraud prevention capabilities across global markets.
- Unified 80%+ of Mexico's customer base onto a single identity platform, improving engagement, customer experience, and trust.
- Scaled a common enterprise identity platform across Walmart, Sam's Club, Marketplace, and B2B businesses, supporting hundreds of millions of users.
- Expanded Walmart's commerce ecosystem through Vizio integration, creating a new connected TV engagement channel and accelerating customer adoption.

Senior Director, Product Management — Walmart International (eCommerce) *Aug 2021 – Dec 2025*

- Delivered $250M+ cumulative business impact over three years, including $125M+ in FY26, through product, platform, and customer experience transformation.
- Led Walmart International's customer engagement portfolio across four countries, driving growth, loyalty, monetization, fintech, marketing, and post-purchase experiences at scale.
- Directed 20% of Walmart's enterprise-wide technology modernization agenda, establishing reusable platforms and shared capabilities across multiple global markets.
- Accelerated AI-led business transformation by launching GenAI products that delivered $22M+ GMV impact, significant cost savings, and 95% agent cycle-time reduction (MCP-based Post-Order Summary).
- Strengthened customer trust, security, and digital adoption through identity platform modernization, generating millions in revenue uplift and operational savings.
- Scaled Walmart Mexico's fintech ecosystem to 1.48M active customers and $2B MXN (~$100M USD) in annual TPV, expanding financial inclusion and customer engagement.
- Built and scaled membership businesses across Canada and Mexico, driving 250K+ subscriber growth and increasing customer lifetime value.
- Expanded digital acquisition and commerce growth through MarTech and SEO transformation, generating $19M annualized GMV and significantly increasing online visibility.
- Influenced enterprise strategy through executive-level product narratives that shaped investment priorities and future customer experience roadmaps.
- Drove global platform leverage and operational efficiency, reducing duplicated investments and accelerating feature delivery by up to 75%.
- Built and led a high-performing 90-person product organization and enterprise analytics capability supporting Walmart International's growth agenda.
- Cultivated an award-winning, highly engaged product culture with industry-leading employee participation, retention, leadership development, and collaboration outcomes.

AMAZON CORPORATION — India & USA **Aug 2016 – Aug 2021**

Product Manager (Technical) Lead — Alexa Data Services, Hyderabad *Jul 2020 – Aug 2021*

- Drove strategy and roadmap for ML annotation network optimization, maximizing throughput and minimizing cost by routing workloads to the right annotators at scale; reported directly to the org VP during war-room escalations.

Senior Product Manager (Technical) — Amazon Business (B2B), Hyderabad *Jan 2019 – Jul 2020*

- Owned the Amazon Business home page and cross-site B2B navigation, driving multi-million-dollar annual revenue uplift; pitched and secured annual roadmap funding (OP1) through VP levels.

Product Manager (Technical) — Amazon Home Services, Hyderabad *Nov 2017 – Dec 2018*

- Defined product strategy for Alexa x Home Services integration; designed the voice UI and co-authored go-to-market strategy with marketing.

Product Manager (Technical) — Alexa Smart Home, Seattle *Aug 2016 – Oct 2017*

- Launched Alexa Smart Home in India (Oct 2017): built the Skills platform and developer SDK for third-party partners, onboarded ~20 device integrations, and shipped the full end-to-end customer experience for a new market.

NORDSTROM TECHNOLOGY — Seattle, USA Apr 2015 – Jul 2016

Technical Program Manager III — Enterprise Information

- Delivered a strategic omnichannel transformation program, establishing a unified customer identity ecosystem and modernizing enterprise platforms to support scalable growth and seamless customer experiences.

MICROSOFT CORPORATION — Bellevue, USA Jul 2013 – Sep 2014

Program Manager II — Microsoft Dynamics AX (Public Sector)

- Drove enterprise ERP modernization across core business functions, aligning technology capabilities with operational and procurement objectives through global stakeholder collaboration.

KING COUNTY GOVERNMENT — Seattle, USA Mar 2009 – Jun 2013

Group Manager / Development Manager — Oracle EBS Finance (ABT Program)

- Spearheaded an $88M enterprise technology transformation, leading cross-functional teams, modernizing core business platforms, and driving executive governance through direct engagement with C-suite stakeholders.

ORACLE CORPORATION — Hyderabad, India Jul 2003 – Nov 2008

Project Leader / Technical Lead / Developer — HCM / Fusion Applications

- Directed global payroll platform expansion across 19 countries, delivering critical enterprise releases on schedule while championing innovation initiatives recognized by the organization's Chief Software Architect.
