PROFESSIONAL SUMMARY

Global product executive with 23 years of building platforms, organizations, and businesses at scale — spanning Oracle, King County, Microsoft, Nordstrom, Amazon, and Walmart. Career rooted in engineering and architecture, evolved through program leadership and P&L ownership, now driving AI-first product strategy. At Walmart, built a 90-person product org and owned 6 of 29 enterprise Commerce Platform tracks across US, CA, MX, and Chile. Stood up the Walmart Translation Platform (80+ languages, 800M+ entities translated, patent pending — 2025 President’s Innovation Award, selected by CEO Doug McMillon). In a single fiscal year: **\$100M+ in Ads revenue. Eight-figure platform-driven GMV. Eight-figure annual cost savings.** 10+ GenAI products shipped to production. Earlier: unified omnichannel identity at Nordstrom, launched Alexa Smart Home in India at Amazon (Rockstar Award), led \$88M enterprise modernization at King County. Builds platforms that scale across borders, and organizations that thrive across cultures.

PROFESSIONAL EXPERIENCE

Aug 2021 – May 2026 WALMART CORPORATION (IDC) Bengaluru, India

Jan 2026 – May 2026 Global Product Leader, Walmart Inc (eCommerce)

- Own the enterprise Accounts & Identity platform — the gateway serving hundreds of millions of customers across click-and-brick. Drove architecture that collapsed market onboarding from several months to 3 weeks.
- Architected the identity infrastructure for AI agentic shopping — exposed secure account APIs powering next-gen conversational commerce, a strategic bet for Walmart’s AI future.
- Drove \$20M+ incremental revenue through sign-in conversion transformation across two international markets, while materially reducing account takeover fraud.
- Unified the majority of one market’s active user base under SSO across eCommerce and adjacent verticals, lifting login rates and deflecting fraud.
- Extended the identity platform to additional Walmart properties including Sam’s Club, the Marketplace ecosystem, and B2B surfaces — establishing the single identity backbone across Walmart’s entire ecosystem.
- Launched a partner account integration opening a net-new TV-commerce identity surface, with strong first-month adoption.

Aug 2021 – Dec 2025 Senior Director, Walmart International (eCommerce)

- Built a 90-person product organization from 15 — in 4 years. PMs, analysts, and program managers. Owned 1 of 5 major international eCommerce domains.
- Defined and drove the “Customer Engagement” portfolio end-to-end: Accounts, Care, Monetize (AdTech), Membership, Growth/MarTech (SEO, CRM, Paid Marketing), Financial Services (Cashi), and Post-Purchase for 4 countries (US, MX, CA, Chile).
- Owned product for Cash, Walmart Mexico’s fintech wallet serving the unbanked — presented to CEO Doug McMillon, Intl CEO Judith McKenna, and the Walmart Board of Directors. Grew to 1.48M quarterly active customers; account linkage delivered 151K new users and MXN 68.7M (~\$3.4M USD) incremental TPV. Cashback rewards generated \$5M USD in eCom sales in a 2-day pilot, projected \$18M annualized GMV.
- Drove \$100M+ in Ads revenue, \$30M+ platform-driven GMV, and \$10M+ annual cost savings across a \$30M+ P&L — most recent fiscal year delivered \$125M+ quantified business impact with double-digit YoY growth.
- Owned 6 of 29 critical WCP component tracks in Walmart’s enterprise-wide tech modernization (“build once, use everywhere”) — post-purchase, customer platforms, and shared capabilities across US, CA, MX, and Chile.
- Shipped the FY26 GenAI portfolio across International eCommerce: an LLM-powered insights dashboard (\$1.4M cost savings + \$15M GMV impact); voicebot + chatbots (\$7M GMV retention); agentic AI Post-Order Summary using Model Context Protocol (MCP) — 95% cycle-time reduction, live in two markets.
- Beat market targets across login conversion, customer-contact reduction, and Trust & Safety; delivered 250K+ paid-subscriber growth across two markets and \$4.5M annual savings on Trust & Safety.
- Authored 2 strategy narratives that shaped C-suite product direction: “Enterprise Product Portfolio” (4 case studies — read by Daniel Danker, CPO) and “Videofying the eCommerce Experience” (reviewed by Kath McLay, CEO Walmart International, and Tim Simmons, CPO).

- Drove Identity platformization at speed: stood up a new market on the platform in 3 weeks; delivered +500 bps login uplift for a new vertical with \$2M impact; rolled out Omni verified-email across hundreds of in-market stores.
- Scaled the Mexico membership program to 130K+ Net Active Subscribers — 2x FY25 target — via a new acquisition lever; grew Canada Delivery Pass to ~40% of grocery GMV (recognized with the 2024 BrandSpark Best New Product Award).
- Built and scaled Growth/MarTech (SEO, CRM, Feeds, Paid Marketing) across 3 markets: expanded SEO indexed pages 18x for MX (15.5M) and 4x for CA (79M); launched Local Inventory Ads driving \$19M USD annualized GMV; enabled real-time Google feed integrations across all banners; protected SEO revenue and average rank through Glass platform migration.
- Transformed team culture and engagement. AES scores at 100% participation: Integrity 94%, Intent-to-Stay 86%. Instituted AMAs, all-hands, offsites, Product Guild, mentoring circles, elevated PRD/MBR rigor.
- Pioneered cross-leverage between US and International on Accounts, saving \$500K+ in duplicated effort. Shipped phone-as-identifier Intl → US. Cut implementation timelines 60–75% on multiple major features.

Aug 2016 – Aug 2021 AMAZON CORPORATION India & USA

Jul 2020 – Aug 2021 Product Manager (Technical) Lead — Alexa Data Services, Hyderabad

- Drove strategy and roadmap for ML annotation network optimization — maximizing throughput and minimizing cost by routing workloads to the right annotators at scale. Reported directly to org VP during war-room escalations.

Jan 2019 – Jul 2020 Senior Product Manager (Technical) — Amazon Business (B2B), Hyderabad

- Owned Amazon Business Home Page and cross-site B2B navigation, driving multi-million dollar annual revenue uplift. Pitched and secured annual roadmap funding (OP1) through VP levels.

Nov 2017 – Dec 2018 Product Manager (Technical) — Amazon Home Services, Hyderabad

- Defined product strategy for Alexa x Home Services integration. Designed VUI, co-authored GTM strategy with marketing.

Aug 2016 – Oct 2017 Product Manager (Technical) — Alexa Smart Home, Seattle

- Launched Alexa Smart Home in India (Oct 2017): Smart Home Skills for 3P developers, ~20 partner devices onboarded, full end-to-end customer experience shipped for a new market.

Apr 2015 – Jul 2016 NORDSTROM TECHNOLOGY Seattle, USA

Technical Program Manager III — Enterprise Information

- Delivered “One Nordstrom” — unified omnichannel identity via mobile number on AWS. Led 25+ person team; drove enterprise SOA migration from on-prem SOAP to RESTful services.

Jul 2013 – Sep 2014 MICROSOFT CORPORATION Bellevue, USA

Program Manager II — Microsoft Dynamics AX (Public Sector)

- Coordinated 3 major AX releases (CU7, R3, CU8) across Finance, SCM, and HR/Payroll. Developed eProcurement feature set with core SCM team in Denmark. Customer advocate across sales, implementation, and direct escalations.

Mar 2009 – Jun 2013 KING COUNTY GOVERNMENT Seattle, USA

Group Manager → Development Manager — Oracle EBS Finance (\$88M ABT Program)

- Led 20+ person team through full-lifecycle Oracle EBS R12 implementation for \$88M county-wide modernization. Architected integration with 80+ side systems (BPEL/SOA). Reported to C-level bi-weekly.

Jul 2003 – Nov 2008 ORACLE CORPORATION Hyderabad, India

Project Leader → Technical Lead → Developer — HCM / Fusion Applications

- Led cross-localization of S.O.E. for Oracle Fusion across 19 localizations (UK, India, France, US). Innovated 2 ideas (1 patentable) presented to Chief Software Architect (6,000+ employees). Shipped 2 of 5 major Payroll releases for NORDICS, 100% on schedule.

AI / GENAI PROJECTS

AI Agentic Shopping (2026) — Identity APIs for AI shopping agents enabling conversational commerce.

GenAI Voicebot & Chatbots (FY26) — Conversational AI for customer care across two international markets; measurable CPO reduction and \$7M GMV retention.

GenAI CPO Insights Dashboard (FY26) — LLM-powered transcript analytics; \$1.4M cost savings and \$15M GMV benefit.

LLM-Driven UI Translation Platform (2025) — 80+ languages, 800M+ entities translated FY26 across catalog, reviews, and search — exceeding goal. \$900K direct savings and \$22M annualized enterprise rollup (incl. internal app-suite localization across 25+ mini-apps; Seller Center). 30 min SLA vs 3-day human baseline. Prevented Quebec store closure via CA catalog French translation (200M items, Jan 2025). Onboarded Spark Driver Notes: 3M notes/day, 300K+ drivers in 4 weeks. President's Innovation Award + 2025 Spanish Retail Association (AER) Award. Patent pending.

GenAI Post-Order Summary (FY26) — Agentic AI delivering a 360° view of customer orders, diagnosing issues and recommending next-best actions; 95% reduction in care-cycle time; material customer-contact reduction and \$XM GMV retention across two markets.

ML Annotation Network Optimization (Amazon, 2020–21) — Workload routing engine maximizing annotation throughput at scale.

Alexa Smart Home India (Amazon, 2017) — Market launch: Skills platform, 20+ device partners, full customer experience.

Personal AI Lab (2025–present) — Multi-agent orchestration, digital twin architecture, AI governance patterns, cost modeling.

Hands-on with LLMs, agentic workflows, and prompt engineering. sauravirai.github.io

SKILLS & COMPETENCIES

Leadership: Product Strategy & Vision, P&L Ownership (\$30M+), People Leadership (90+ ICs, multi-geo), Org Design & Culture Building, Stakeholder Management (VP/C-level), GTM, OKRs/KPIs, Roadmapping (OP1/AOP), Agile/Scrum (Certified SCRUM Master), Lean, Design Thinking.

AI / ML: GenAI, LLMs, Agentic AI, MCP, NLP, Topic Modeling, ML Annotation, A/B Testing, Responsible AI, Conversational AI, RAG, Patent-pending GenAI Translation QA.

Platforms: Identity & Profile, SSO, Accounts, Membership, REST APIs, SOA, Microservices, AWS, Oracle EBS/Fusion, MS Dynamics AX.

Domains: eCommerce, Marketplace, Omnichannel (Click+Brick), B2B/B2C, Post-Purchase, Customer Care (Voice/Chat), AdTech, Trust & Safety, Localization/i18n, Translation Platforms.

International: US, Canada, Mexico, Chile, India, South Africa, UK, France, Nordics.

EDUCATION

Bachelor of Engineering (B.E.) — Electronics & Communications Engineering

Birla Institute of Technology (BIT Mesra), Ranchi, India · 1999 – 2003

AWARDS & RECOGNITION

- 2025 Walmart President's Innovation Award — LLM-Driven UI Translation Platform (80+ languages). Patent pending. Selected by CEO Doug McMillon.
- 2025 Spanish Retail Association (AER) Award — Best International Retailer for Spanish Experience, recognizing the WTP-powered Spanish-language eCommerce experience for 70M+ US Hispanic customers.
- Patent Pending — GenAI Translation Quality Scoring (Entity Detection + Uncommon Tokens) — domain-aware filters purpose-built for e-commerce, replacing legacy BLEU/BertScore.
- 2024 Walmart Global Tech IDC Impact Award — recognized by SVP Balu Chaturvedula.
- 2024 BrandSpark Best New Product Award — Walmart Canada Delivery Pass (Online Grocery Subscription Pass category, Canada).
- AI Product Management Certificate (2026) · Certified SCRUM Master (2013)
- Amazon Rockstar Award
- Patent-worthy innovation at Oracle (presented to Chief Software Architect, 6K+ org)
- CIO Award, King County — recognized for leadership on \$88M enterprise modernization program.
